Part B: Research Opportunities

From time to time opportunities will arise for people with diabetes to participate in research activities related to diabetes, its management and the prospects of finding a cure.

- 1) Would you like to receive information about these opportunities as they arise? **YES NO**

Part C: To be Completed by Registrant OR Parent/Carer/Guardian

(if Registrant is under 15yrs, or is an adult unable due to incapacity)

I verify that all the details provided in sections A and B are true and correct.

Name: Signature:

Diabetes Australia Membership: Diabetes Australia has member organisations in each State and Territory. Their role is to help people manage diabetes through information and products and actively support research into diabetes. Registration with NDSS does not automatically provide membership of Diabetes Australia.

- 1) Are you currently a subscribing member of a Diabetes Australia State or Territory Association? **YES NO**
- 2) If you have circled "NO" would you like to receive information about the benefits of membership of Diabetes Australia? **YES NO**
